ATTACHMENT II STATEMENT OF WORK

<u>Item</u>	Description				
1.	Prepare at least one dozen Elfin devices for field testing. Some of these are to be used for frequency determination.				
2.	Conduct detailed field tests of the Elfin devices to determine sensitivity and dynamic range.				
3/	Conduct field tests to determine frequency discrimination capability of a group of Elfin devices with resonant antennas.				
4.	Perform supporting laboratory investigations for the field tests and conduct laboratory experiments to improve the Elfin devices.				
5.	Prepare monthly letter progress reports.				
6.	Prepare Final Engineering Report on field tests and laboratory research.
